# 护理治疗空间解决方案 NURSING TREATMENT SPACE SOLUTION

# SPACE

针对每个护理治疗空间做详细的整体医用家具解决方案，空间功能布局符合医疗二级流程，各种功能房间符合医疗三级流程的要求，避免医院内部交叉感染，构建最适合物流系统的护理治疗空间。

Aiming at every nursing and treatment space ,the detailed overall solution for medical furniture is made,of which the function layout of space conforms to the second-level medical process and the various kinds of functional rooms comply With the requirements of second-level medical process ,to avoid the cross infection inside the hospital and buird the nursing and treatment space most suitable to the logistics system.

## 高品质的时尚医用家具产品 High-quality fashion medical furniture products

为了能让客户的需求反映在产品上，博生集团全体员工都要去感知客户的需求动向。在进行医用家具的规划设计工作之前，博生集团专业人员会通过和使用者的深入交谈讨论、调查现在医院的使用情况、参观考察相当规模条件的已建医院等方法来协助医院的使用者编制设计任务书，进而作为医用家具设计的依据进行设计、供院方确认，并修改和完善设计方案；立足于博生集团强大、专业、高效的生产能力，为院方提供高品质的时尚医用家具产品。

In order to enable customers' needs to be reflected in the product. All employees of Berson Group have to perceive the needs of customers. Before the planning and design of medical furniture, the professionals of Berson Group will assist the users of the hospital to prepare the design specification through in-depth discussion with the users, investigation of the use of the current hospital, visit and inspect the existing hospitals with comparable scale conditions, etc., which will be used as the basis for the design of medical furniture and confirmed by the hospital. And modify and improve the design scheme; Based on the strong, professional and efficient production capacity of Berson Group, we provide high quality fashion medical furniture products for the hospital.

## Layout 布局

### 营造和谐环境

合理的布局是家具规划的首要因素，通过建筑布局、空间分割、方位调整满足人们对身心之合的需要。

于医院家具来说主要是针对空间布置形态的处理，包括自然环境的利用与改造，位置、朝向、高低、大小、出入口等因素安排。

## Furniture 家具

### 赋予空间灵魂

空间设计中，家具是空间的主体，赋予了空间不同的灵魂。

家具运用不同的东西方设计、艺术、时尚元素，结合不同的工艺手法，将生活形态和美学意识赋予了空间独特的内涵，传递出不同的空间装饰设计风格。

坚持时尚、简约式 BERSON 的设计风格，其赋予了医院“人性空间、自由办公”的风格理念，实现了办公的同时享受艺术的存在，使您 360 度全方位感受人性办公空间境界。

## Color 色彩

### 色彩创造精彩

心理学家认为色彩能改变人的心情，凝聚更多灵感。

暖色调可用于营造舒适温馨的环境，自然的材料和偏淡的冷色调可用于缓和氛围，而热烈、饱和度高的艳丽色彩，如红色、橙色等，产生强烈的视觉冲击力，营造一种欢快的、充满活力的氛围。

我们认为世界上无所谓好看的或不好看的色彩，只在乎设计师如何运用。BERSON 在产品设计中加进色彩元素，设计师运用材料的质感及色调来表达产品的风格与韵味。

## Elegcy 环保

### 环保诠释责任

“环保”不仅仅是一种时尚、一种理念，更多的是代表一种进步、一种责任。我们倡导材料循环利用、可回收及低化学挥发度，促进人类的可持续发展。基于社会责任，BERSON 承诺通过提高空气质量来改善公众健康，提供绿色生态空间，在 8 小时的办公空间里，可以自由呼吸。

## Light 照明

### 倡导“绿色照明”

照明设计包括普通照明、重点照明和情景照明等，办公空间内主要应用的普通照明，可是普通照明在设计的时候并不普通，优质光源需要满足以下四点：

- 一、灯光源发出的光为全色光，即光谱连续分布在人眼可见范围内，视觉不易疲劳；
- 二、灯光光谱成分中应没有紫外光和红外光；
- 三、光的色温应贴近自然光；
- 四、灯光为无频反光 BERSON 愿意推动医院家具绿色照明概念的普及，让人人都能拥有健康的双眼，宜人的照明情绪，从而使人人有热情、工作效率高，并愿意工作。

## Accessories 配饰

### 配饰激发灵感

一件好的配饰能轻松改变您得空间风格。配饰可以在空间设计中达到画龙点睛的作用，为空间创造意境，表达一定文化含义。小小的饰品积存了个人对空间的情感，使人感受到所处环境的内涵和意境。BERSON 愿意提供医院家具的整体设计，为每一个客户提供配饰设计规划。

# 现代医院家具规划要素 Elements of creating modern hospital furniture

多年的家具规划经验，BERSON 用心总结出医院家具规划要素

With many year of experience in furniture planning , BERSON summed Up the six elements of creating modern hospital furniture

## 导诊台 / 护士站

### Guide desk/nurse station

医院护士站设计与制定结合医院内部环境位置和内部整体色彩进行搭配，在给予提供护士充足的工作空间的情况下，也在视觉上扩大医院整体空间效果。该护士站整体采用白色和天蓝色为主，结合了该医院内部白色装修为主的色调，让两者融为一体，干净洁白明亮，提供给患者及工作人员清爽舒畅的环境。可提供护士站设计、装修、安装等一列配套服务。

Hospital nurses design and development combined with the internal environment of the hospital and the overall internal color to match, to provide adequate nurse working space in the case, but also visually expand the overall effect of the hospital space. The nurses station as a whole using white and sky blue, combined with the hospital interior white decoration-based color, so that the two blend, clean and bright, to provide patients and staff fresh and comfortable environment. Can provide nurses station design, decoration, installation and other supporting services.

## 导诊台 / 护士站

### Guide desk/nurse station

导诊台是服务窗口，也是医患交流的第一站。便捷沟通、高效运转、体现医患关怀是必要因素。我们融入智能化导诊系统，这是人性化设计在细节处的体现。

The consultation desk is the service window, also is the first station which the doctor and patient exchanges. Convenient communication, efficient operation, reflecting the care of doctors and patients is a necessary factor. We integrated into the intelligent guidance system, which is the embodiment of human design in the details.

护士站是护士办公的场所，让护士从每天忙碌不堪的工作角色中解脱出来，把护士站打造成为高效能系统，支持24小时不间断的护理服务，这就要求在家具的设计功能上追求完善，充实的功能系统，保障了护士站追求高效、安全的护理功能。从医用业务安全方面来讲，也是非常重要的，从患者方面来说，护士站对于营造开放的医院形象也是非常重要的。

# Nurse workstation

 导诊台 / 护士站  
Guide desk/nurse station

 导诊台 / 护士站  
Guide desk/nurse station

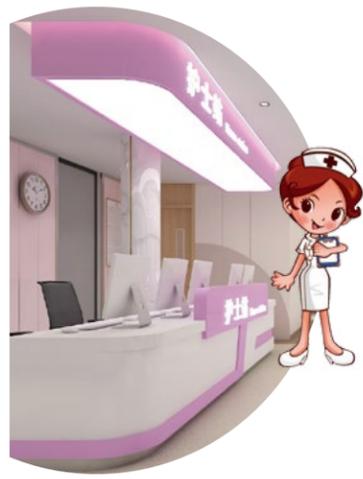

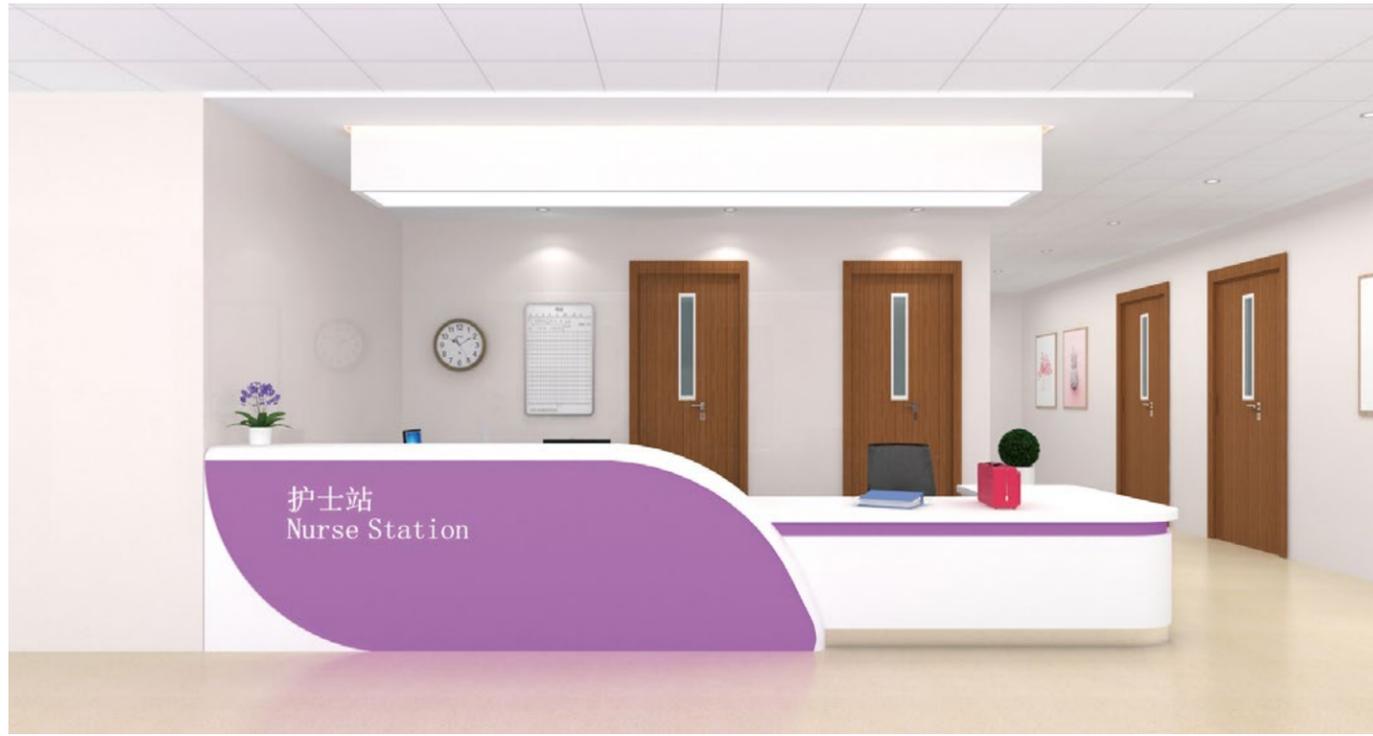

护理单元护士站  
Nursing Unit Nurse Station

医院护士站设计与制定结合医院内部环境位置和内部整体色彩进行搭配，在给予提供护士充足的工作空间的情况下，也在视觉上扩大医院整体空间效果。该护士站整体采用白色和天蓝色为主，结合了该医院内部白色装修为主的色调，让两者融为一体，干净洁白明亮，提供给患者及工作人员清爽舒畅的环境。

The design and formulation of the hospital nurse station are combined with the location of the internal environment and the overall color of the hospital to expand the overall spatial effect of the hospital visually while providing sufficient working space for nurses. The nurse station adopts white and sky blue as the main color, combined with the white decoration of the hospital, so that the two are integrated, clean, white and bright, providing patients and staff with a refreshing and comfortable environment.

 **妇产科护士站**  
Obstetrics and Gynecology

社会的发展进步，对医院空间提出了更高的要求，导医台、护士站逐渐从装修中剥离出来，专业化的设计和工业化的生产让医院空间环境得以飞跃提升，作为医院的门户和视觉形象，度身定做的护士站必不可缺。

The development and progress of society, put forward higher requirements of hospital space, medical, nurse stations gradually separated from the decoration, professional design and industrial production leaps for hospital space environment to enhance, as a portal and visual image of the hospital, tailor-made nurses station essential.

护士站设计与定制，结合医院内部整体色彩风格进行搭配。在提供护士站充足空间的情况下，也在视觉上提升医院的整体空间效果和档次。护士站不仅满足病患接待、问询、分流、填单、沟通等功能，更是医护人员主要的工作空间。

The design and customization of the hospital nurse station is combined with the overall color style of the hospital. In the case of providing sufficient space for nurse station, the overall spatial effect and grade of the hospital are also visually improved. The nurse station not only satisfies the functions of patient reception, inquiries, diversion, filling in orders, communication, etc., but also the main working space of medical staff.

 儿科护士站  
Pediatric Nurse Station

不同功能科室的医疗空间要根据其功能要求不同来设置色彩，达到以色彩设计强化空间功能的作用，对于特殊医疗空间，其色彩设计会起到意想不到的辅助治疗作用。

The layout of the treatment room should be simple, comfortable and practical, neither too monotonous nor lacking in human touch. It is best to meet the basic functions and practicality.

儿科护士站童趣化设计能够缓解儿童心理压力，通过鲜艳的色彩、可爱的卡通形象和有趣的玩具等元素，吸引儿童的注意力，减轻他们对医院的恐惧和焦虑，在心理上获得更多的安全感和舒适感，促进儿童身体康复。

The child-friendly design of the pediatric nurse station can relieve children's psychological stress. Through bright colors, cute cartoon characters and interesting toys and other elements, it can attract children's attention, reduce their fear and anxiety towards the hospital, and provide them with more psychological security and comfort, promoting their physical recovery.

## 治疗 / 配药 / 处置室 Treatment/Medication/Disposal Room

治疗室是病区护士执行医嘱输液配剂、用药配备的主要场所，室内有严格的高洁净度要求。满足于操作者人体工学结构，准备迅速的医学物品供给回收，污染物分类处理是治疗室家具设计配置必须充分考虑的因素。柜体主要材料为防水、防潮板材或一级电解钢板，经久耐用不易变形，操作台面采用可防酸耐碱的理化板材或一体成形无缝连接的医用人造石。

The treatment room is the main place where nurses in the ward carry out the execution of doctor's orders for infusion, preparation of solutions and medication supply. It has strict requirements for high cleanliness. Considering the ergonomic structure of the operators, preparing rapid supply and recovery of medical items, as well as classified treatment of pollutants, these are all factors that must be fully considered in the design and configuration of furniture in the treatment room. The main materials of the cabinets are waterproof and moisture-proof boards or first-class electrolytic steel plates, which are durable and not prone to deformation. The operation countertop adopts chemical-resistant and acid-resistant physical and chemical boards or seamless connected artificial stone for medical use.

## 治疗 / 配药 / 处置 / 换药室（钢制） Treatment/Medication/Disposal/Dressing Room (Steel)

伴随着治疗室环境的不断变化，准确迅速的物品供给、回收方式是最基本的要求。为了对应这个环境变化，推荐物品的配套原件，也是一种解决方法，器械的集装化，药品的配套化的进展，各种物品、药物分类放置、位置固定、标签完整、字迹清楚等条件，已成为治疗室的基本需求。

With the continuous changes in the environment of the treatment room, the most basic requirement is for accurate and prompt methods of item supply and recovery. To cope with this environmental change, recommending the corresponding accessories for items is also a solution. The progress of containerization of medical devices and matching of drugs, as well as the conditions of categorically placing various items and drugs, fixing their positions, having complete labels and clear handwriting, etc., have become the basic requirements of the treatment room.

### 治疗 / 配药 / 处置 / 换药室 (钢制)

Treatment/Medication/Disposal/Dressing Room (Steel)

(钢制)

治疗 / 配药 / 处置 / 换药室  
Treatment/Medication  
Disposal/Dressing Room

考虑到工作效率、作业效率的分区，追求工作人员的易于工作性，有效地活动空间的分区规划；对工作人员以及患者来说易于使用的动线规划，考虑到安全对应的设备布置，提高作业效率的布局规划。

The layout of the treatment room should be simple, comfortable and practical, neither monotonous nor lacking in human touch; it should best meet the basic functions and practical needs.

治疗 / 配药 / 处置 / 换药室 (钢制)  
Treatment/Medication/Disposal/Dressing Room (Steel)

治疗室的布置应当简洁、舒适和实用，既不过于单调，也不缺乏人情味；以满足基本功能和实用为最佳。  
The layout of the treatment room should be simple, comfortable and practical, neither monotonous nor lacking in human touch; it should best meet the basic functions and practical needs.

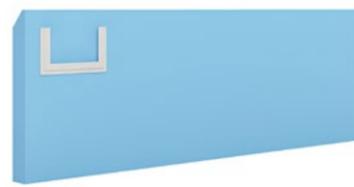

Products 单品图:

一体铝合金拉手 (ABS 透明标签框)

隐藏式拉手 (ABS 标签框)

口腔科 (钢制)  
Stomatology department(Steel)

## 口腔科 Stomatology department

为了提高诊疗效率,在口腔科设计时,应考虑到诊疗方式、营运规模、设备等对设计的影响。在牙科诊所空间设计上,使用半开放的隔间区分每个治疗空间,尊重每位患者的隐私,如此就诊与候诊的患者彼此不会互相干扰。诊室内摆设包括家具、医生诊断桌等应简单、易于清洗和表面消毒。

To enhance the efficiency of diagnosis and treatment, when designing an oral department, the impact of diagnosis and treatment methods, operation scale, and equipment on the design should be taken into account. In the space design of dental clinics, semi-open compartments should be used to separate each treatment space, respecting the privacy of each patient, so that patients receiving treatment and those waiting will not interfere with each other. The furnishings in the clinic, including furniture and doctors' diagnosis tables, should be simple, easy to clean and disinfect on the surface.

口腔科 (木制)  
Stomatology department(Wooden)

## 收费 / 挂号处 Fee/Registration Office

挂号、收费室是医院对外的窗口，“博生”努力让工作人员在一个舒适、高效、便捷的环境中工作，为患者节省宝贵的时间。

The registration and charge room is the window of the hospital, "Berson" strives to let the staff work in a comfortable, efficient and convenient environment, saving valuable time for patients.

 收费 / 挂号处  
Fee/Registration Office

 收费 / 挂号处  
Fee/Registration Office

完美的手工，典雅别致的设计和不断提升的品质，赢得各方青睐，赞誉四起。

Perfect handcraft, elegant and unique design, continuously improved quality have gained favors from and been well recieved by various circles.

中 / 西药房  
Chinese/Western Pharmacy

支持药库药房规划和药品管理，保障医院系统的有序进行。

Support pharmacy planning and drug control and ensure orderly operation of the hospital system.

西药房  
Western Pharmacy

支持药库药房规划和药品管理，保障医院系统的有序进行。药库药房系列产品分为货架系列、西药柜系列、药价系列、中药柜系列等。适合于一级药库、二级药库、中心药房、西药房、中药房等空间使用。

Support Pharmacy Planning and drug management to ensure orderly operation of hospital system. The series products of drug store are divided into shelf series, medicine cabinet series, medicine price series, Chinese Medicine Cabinet series and so on. The utility model is suitable for the space use of the first-class medicine storehouse, the second-class medicine storehouse, the central pharmacy, the Western pharmacy and the Chinese pharmacy.

 西药房  
Western Pharmacy

通过合理设计药品陈列柜和调配工作台等家具的位置与布局，可使药师在调配药品时能够快速获取所需药品，减少走动距离和寻找药品的时间，从而提高调配效率。

Through the rational design of the positions and layouts of furniture such as drug display cabinets and dispensing workbenches, pharmacists can quickly obtain the required drugs during the drug dispensing process, reducing the walking distance and the time spent searching for drugs, thus improving the dispensing efficiency.

Products 单品图:

## 中药房 Chinese pharmacy

设计符合中药材特性（避光、防潮、防虫）的储物空间、多规格抽屉柜和冷藏柜，用于存放不同种类和药性的药材。

Design storage solutions tailored to the characteristics of Chinese medicinal herbs (light-proof, moisture-resistant, and pest-proof), including multi-compartment drawers and refrigerated cabinets, to accommodate different herb types and properties.

Products 单品图:

 诊室  
Clinic Room

 诊室  
Clinic Room

从单向沟通的诊察室，转变到重视相互对话并能建立医患间信赖关系的诊察室。

The diagnosis room changes from a place with only one-way communication into a place where mutual dialogue is highlighted and trust between doctors and patients can be built.

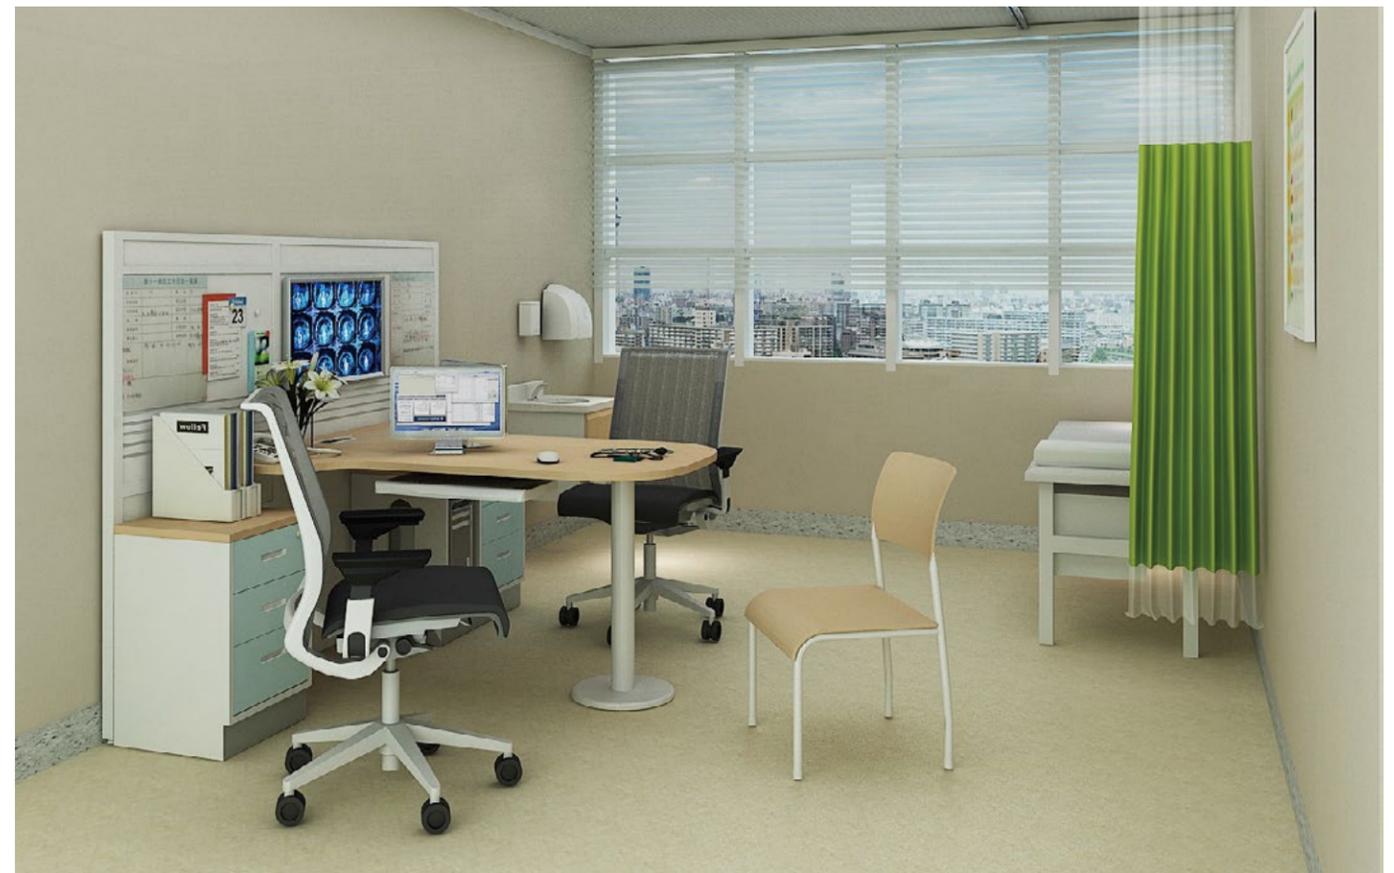

双人诊室  
Two Person Consultation Room

诊室  
Clinic Room

患者希望得到明确的诊断结果和满意的治疗方案，营造亲切宜人并具备相对私密性的环境，应当配备医用隔离帘、诊床，采用简洁、耐用的家具材料，局部高档家具材料为点缀，色彩上使用浅色调以平和病人情绪。

The patient hopes to obtain a clear diagnosis result and a satisfactory treatment plan. A friendly and pleasant environment with relatively private features should be created. Medical isolation curtains and hospital beds should be equipped. Simple and durable furniture materials should be used, with some high-end furniture materials as embellishments. The color scheme should be light to soothe the patient's emotions.

 妇产科诊室  
Obstetrics and Gynecology

考虑到妇产科患者的特殊需求，如孕妇行动不便、私密性强等，家具设计注重舒适性、安全性和私密性。家具中适当增加一些色彩的搭配，可以照顾到孕妇的孕期情绪和心情。

 妇产科诊室  
Obstetrics and Gynecology

Taking into account the special needs of patients in the Department of Obstetrics and Gynecology, such as the inconvenience of movement for pregnant women and the strong demand for privacy, the furniture design places emphasis on comfort, safety, and privacy. Appropriate color combinations in the furniture can take care of the emotional state and mood of pregnant women during their pregnancy.

## 儿科诊室 Pediatric Clinic

运用整体医院家居设计风格，发挥色彩的辅助治疗作用，主要针对病患婴幼儿、不同年龄的儿童特征和爱好特点，营造活泼可爱、舒适温馨、安全现代化的治疗场景气氛。

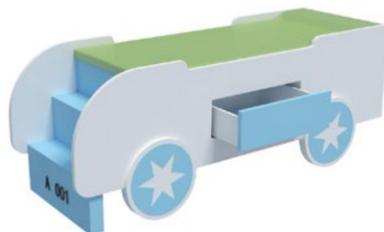

Adopting the overall hospital home design style and leveraging the auxiliary therapeutic effect of colors, it mainly caters to the characteristics and preferences of infants and young children as well as those of different age groups, creating a lively, adorable, comfortable, warm, and safe modern therapeutic scene atmosphere.

## 儿科诊室 Pediatric Clinic

诊室格调定位情趣、童话，空间会创造出属于小朋友的话题，有助于问诊话题轻松开启。汽车造型诊床，大大降低了儿童拒绝躺下的可能性，反而儿童可以愉悦接受。诊桌、诊床采用圆角设计，充分考虑防撞，防碰伤。

The interior decoration style of the clinic is set with an emphasis on charm and fairy tale elements. The space will create topics that are suitable for children, which helps to smoothly initiate the consultation topics. The car-shaped examination table significantly reduces the possibility of children refusing to lie down, and instead, they can accept it happily. The examination table and examination bed adopt rounded corners design, fully considering anti-collision and anti-injury.

## 儿科保健诊室 Pediatric Health Clinic

儿科保健诊室家具设计主要围绕营造温馨舒适的环境、保障儿童安全、满足功能需求以及促进儿童心理发展等方面展开，选用明亮丰富的色彩，边角设计成弧形，设置童趣的诊床等都是家具设计的关键因素。

The furniture design of the pediatric health care clinic mainly focuses on creating a warm and comfortable environment, ensuring children's safety, meeting functional requirements, and promoting children's psychological development. The selection of bright and diverse colors, the design of rounded edges, and the installation of playful examination beds are all crucial elements in the furniture design.

## 功能检查科 Functional Examination Department

功能检查科集心电图诊断、超声影像、肺功能评估等核心项目于一体，配备全数字化智能检测设备，由资深医师团队精准操作。十分钟快速出结果，一站式完成健康筛查，用可靠数据为临床诊疗提供有力支撑。关爱从细致检查开始，我们以专业守护您的健康每一步。

The Function Check Department integrates core items such as electrocardiogram diagnosis, ultrasound imaging, and pulmonary function assessment. It is equipped with fully digital intelligent detection equipment and operated precisely by a senior physician team. Results are available within ten minutes, and a one-stop health screening is completed. Reliable data is provided to support clinical diagnosis and treatment. Care begins with meticulous examinations. We safeguard your health every step with professionalism.

## 功能检查科

### Functional Examination Department

从单向沟通的检查室，转变到重视相互对话并能建立医患间信赖关系的检查室。为实现重视缔结医生和患者确切信赖关系的相互交流，“博生”在产品研发过程中，注重改善医院原有的阻碍医患交流的检查室布局形式。开发出将医生和患者的交流放在首位，创造一个让医生和患者更容易交流的轻松就诊环境。

The exam room has changed from a one-way communication room to one that values mutual dialogue and builds trust between doctors and patients. In order to realize the mutual communication that attaches importance to the conclusion of the exact trust relationship between doctors and patients, "Berson" in the process of product development, pays attention to improving the original layout of the examination room in the hospital that hinders the communication between doctors and patients. To develop an environment that prioritizes doctor-patient communication and creates a relaxed visit environment that makes it easier for doctors and patients to communicate.

 候诊区  
Waiting Area

 候诊区  
Waiting Area

针对患者对医院不满的所有调查中，“等待时间过长”排在了第一位。为了可以温馨治愈患者的心理和身体的空间，“博生”通过在医院的候诊大厅对患者的倾听调查，了解患者实际上感到的不满和非语言的潜在不满，针对这种不满而提出减轻不满的对策，通过对候诊环境医用家具的功能性、舒适性、清洁性、安全性等方面入手，来实现候诊大厅舒适等候空间。

In the survey of patients dissatisfied with the hospital, "waiting for too long" came in first place. In order to be able to warm the patient's psychological and physical space, "Berson" through the hospital waiting room to listen to the patient's investigation, to understand the patient actually feel dissatisfied and non-verbal potential dissatisfaction, for this dissatisfaction and reduce Dissatisfied with the measures, through the waiting environment of medical furniture, functional, comfort, cleanliness, safety and other aspects to achieve the waiting room comfortable waiting space.

 候诊区  
Waiting Area

通常患者及家属的候诊时间较长，因此等候区家具设计要照顾其等候的心理感受，减轻对于医院的恐惧感和厌烦心理，将医疗与休闲完美融合，建立安全至上、舒适就医的等候区环境。细分有儿童等候区、妇科等候区、适老等候区、VIP等候区、普通等候区等。

Usually, patients and their families spend a considerable amount of time waiting for their appointments. Therefore, the furniture design in the waiting area should take into account their psychological feelings during the waiting period, alleviate their fear and boredom towards the hospital, and integrate medical care with leisure perfectly. It should create a waiting area environment that prioritizes safety and provides a comfortable experience for seeking medical treatment. The waiting areas can be subdivided into areas for children, gynecology, elderly care, VIPs, and general patients.

Products 单品图:

儿童 / 活动候诊区  
Children/Activity Waiting Area

儿科候诊区家具用浅蓝色、嫩黄、黄绿及橙色组合，对儿童的心理会产生平和与友善的心境，不会引起焦躁和暴戾。造型上以卡通图案进行装饰，让患儿身处在一个色彩斑斓的童话世界。

The furniture in the pediatric waiting area is a combination of light blue, tender yellow, yellowish green and orange. This color combination can create a peaceful and friendly mood for children and will not cause them to be anxious or violent. The furniture is decorated with cartoon patterns, allowing the children to feel as if they are in a colorful fairy tale world.

儿童 / 活动候诊区  
Children/Activity Waiting Area

结合医院儿童世界室内环境，及墙壁特点，进行人性化曲线设计及色彩搭配，让等候椅与儿童区室内整体融合在一起。工艺方面，让椅面柔软有弹性，让坐着的人舒适自然，放松心情，更好的融合医院环境。

Based on the interior environment and wall features of the children's world in the hospital, a humanized curve design and color matching are adopted to integrate the waiting chairs with the overall interior of the children's area. In terms of craftsmanship, the chair surface is made soft and elastic to ensure that the person sitting on it feels comfortable and relaxed, and better blends into the hospital environment.

儿童 / 活动候诊区  
Children/Activity Waiting Area

## 输液 / 雾化室

### Infusion/nebulization room

输液区是用于急诊、门诊输液的治疗单元，实际设计时可多元套用，需与皮试肌注室、护士站、输液配剂室临近。设计时需注意座椅间距，需满足资料车通过、护士静脉注射等操作所需空间。

Infusion area is used for emergency, outpatient infusion treatment unit, practical design can be multiple applications, should be close to skin test muscle injection room, nurses station, infusion dispensing room. During the design, attention should be paid to the seat spacing, which should meet the space required for data vehicle passing and nurse intravenous injection.

舒适和谐的氛围有助于改善输液人员的心理情绪。输液椅的设计时尚舒适，配备统一标准的输液杆，既方便实用又美观大方。有助于改善环境氛围，提升医院形象。

The comfortable and harmonious atmosphere helps to improve the psychological mood of transfusion people. The design of the infusion chair is stylish and comfortable, and it is equipped with a unified and standardized infusion rod, which is both convenient and practical and elegant. Help to improve the atmosphere, enhance the hospital image.

输液  
Infusion Room

输液座椅符合人体工学，提供可调节的靠背、扶手和脚踏，可配置电源插口和置物格，更具便利性。  
The infusion chair is ergonomically designed, featuring adjustable backrest, armrests, and footrest, and can be equipped with power sockets and storage compartments for added convenience.

输液  
Infusion Room

采用专业的医用级材料，具备防腐、抗菌的功能。  
It is made of professional medical-grade materials with anti-corrosion and antibacterial properties.

Products 单品图:

儿童输液区  
Child Infusion Area

儿童输液区家具融入童趣的卡通元素和造型，缓解儿童紧张的情绪，增加配套的陪护椅，营造出一种温馨、舒适的家庭氛围。

The furniture in the children's infusion area incorporates playful cartoon elements and shapes to relieve children's nervous emotions. Additionally, matching accompanying chairs are added to create a warm and comfortable family-like atmosphere.

## 儿童雾化区

### Children's Atomization Area

运用整体医院家居设计风格，发挥色彩的辅助治疗作用，主要针对病患婴幼儿、不同年龄的儿童特征和爱好特点，营造活泼可爱、舒适温馨、安全现代化的治疗场景气氛。

The use of the overall hospital home design style, play a color of the role of adjuvant therapy, mainly for infants and young children, different age characteristics of children and hobbies, creating a lively and lovely, comfortable and warm, safe and modern treatment scene atmosphere.

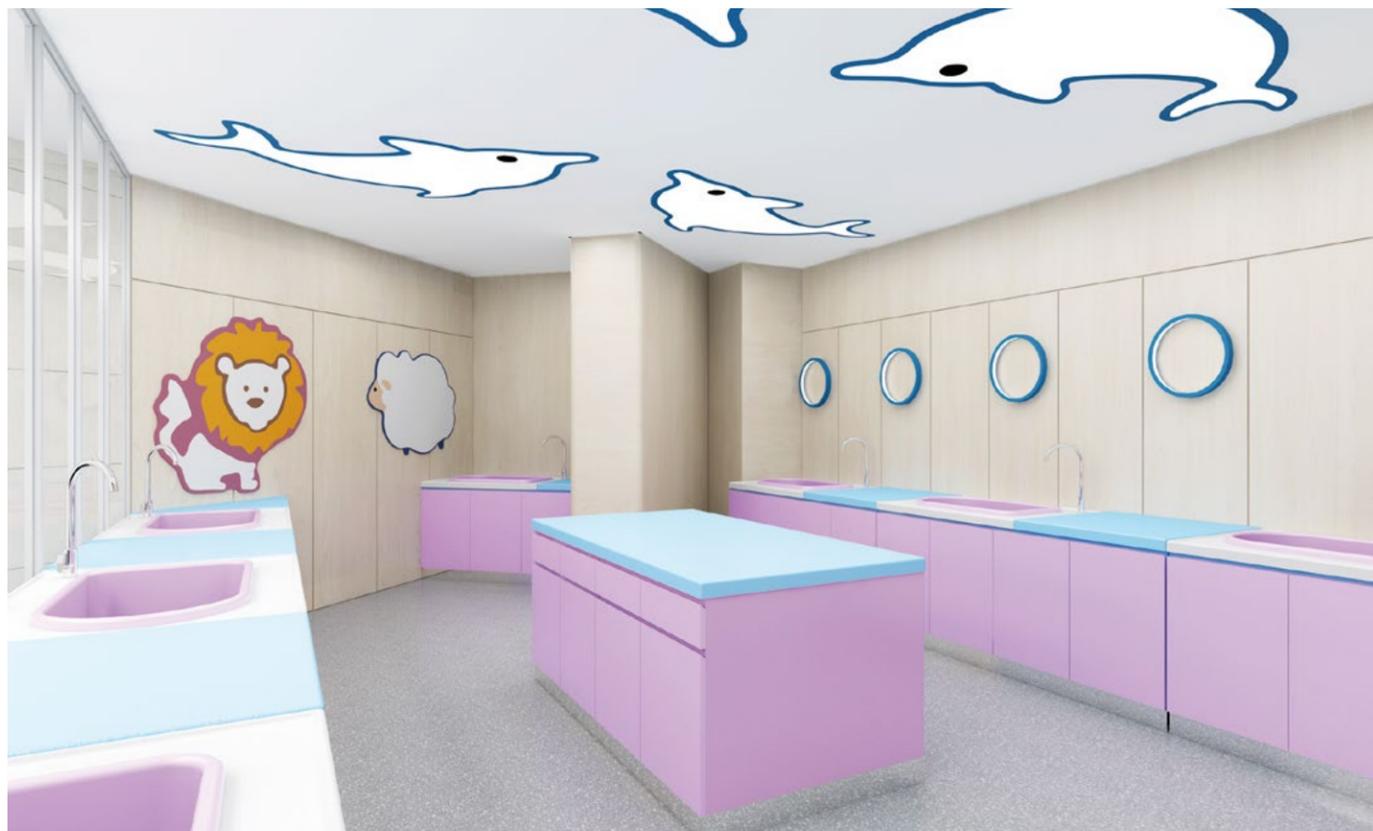

## 母婴室

### Mother And Baby Room

母婴室家具设计专门的哺乳区、婴儿护理台、储物空间和休息区，为母亲和婴儿提供一个舒适、安全、私密且功能齐全的空间，以满足他们在哺乳、换尿布、休息等方面的需求。

The furniture in the maternity and baby room is designed with dedicated breastfeeding areas, baby care tables, storage spaces, and resting areas, providing mothers and babies with a comfortable, safe, private, and fully functional space to meet their needs in aspects such as breastfeeding, diaper changing, and resting.

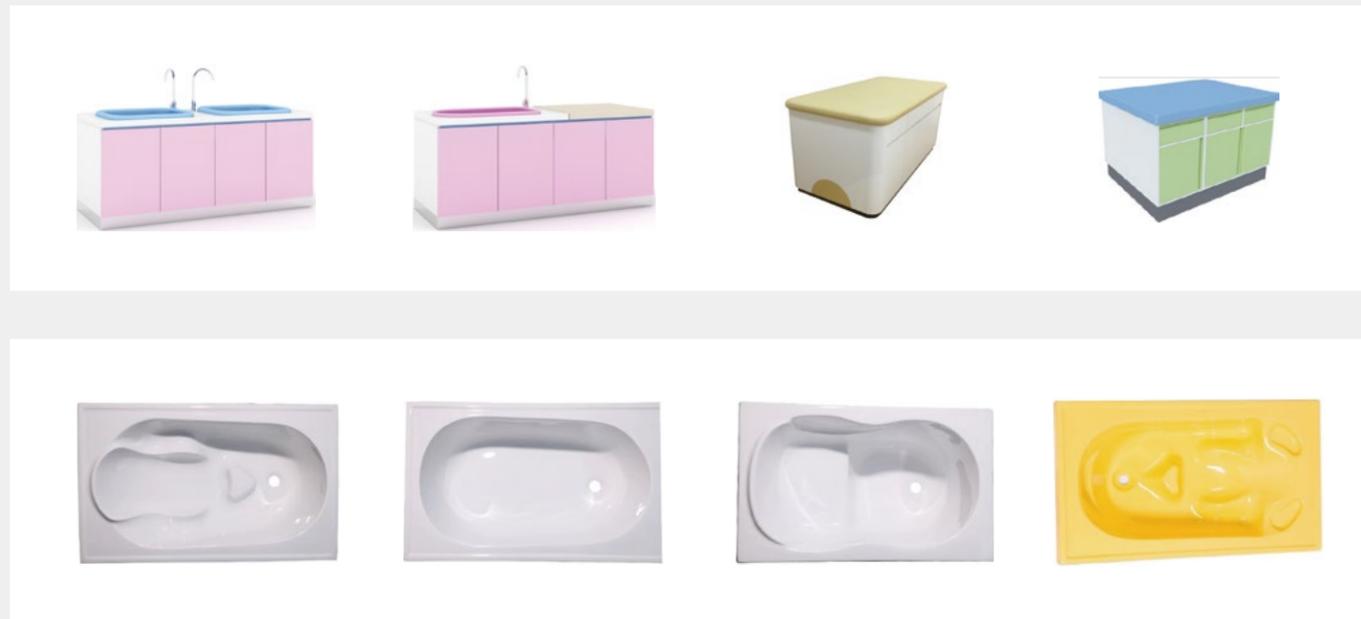

## 洗婴室 Baby Washing Room

洗婴室是新生儿沐浴的地方，也是新生儿护理的主要场所，它集中了新生儿皮肤护理、眼部护理、脐部护理等多项操作，也集中了新生儿的血污、奶渍、大小便等污物处理。运用整体家具风格设计，营造符合婴幼儿特征的活泼可爱、安全温馨的场景氛围。

Baby washing room is the place for bathing newborns and also is the main place for nursing the newborns, which integrates the skin nursing, eye nursing, umbilical nursing and other operations and also integrates the disposal of bloodiness, milk blots, defecation and other pollutants of newborns. With application of the overall furniture style design, build the vivacious, lively, safe and warm scene and atmosphere complying with the features of infants.

## 更衣 / 换鞋室 Changing Room

更衣 / 换鞋室是员工进入岗位前更换鞋的场所，是全体员工共同使用的公共地方，个人物品摆放有序及室内的干净整洁不仅直接影响到更衣室和医院形象，更能反映出医护人员的精神面貌。钢制材质能防霉抗菌抗腐蚀，独立分区存取便捷，医护安心使用无忧。

The changing and shoe-changing room is a place where employees change clothes and shoes before entering their posts. It is a public area used by all staff. The orderly arrangement of personal items and the cleanliness and tidiness of the room not only directly affect the image of the changing room and the hospital, but also reflect the mental outlook of medical staff. The steel material is mold-proof, anti-bacterial and anti-corrosive. The independent partitioning makes storage and retrieval convenient, allowing medical staff to use it with peace of mind and without worry.

换鞋凳 / 鞋柜 (钢制)  
Shoe Changing Stool/Shoe Cabinet (Steel)

更衣室  
Locker Room

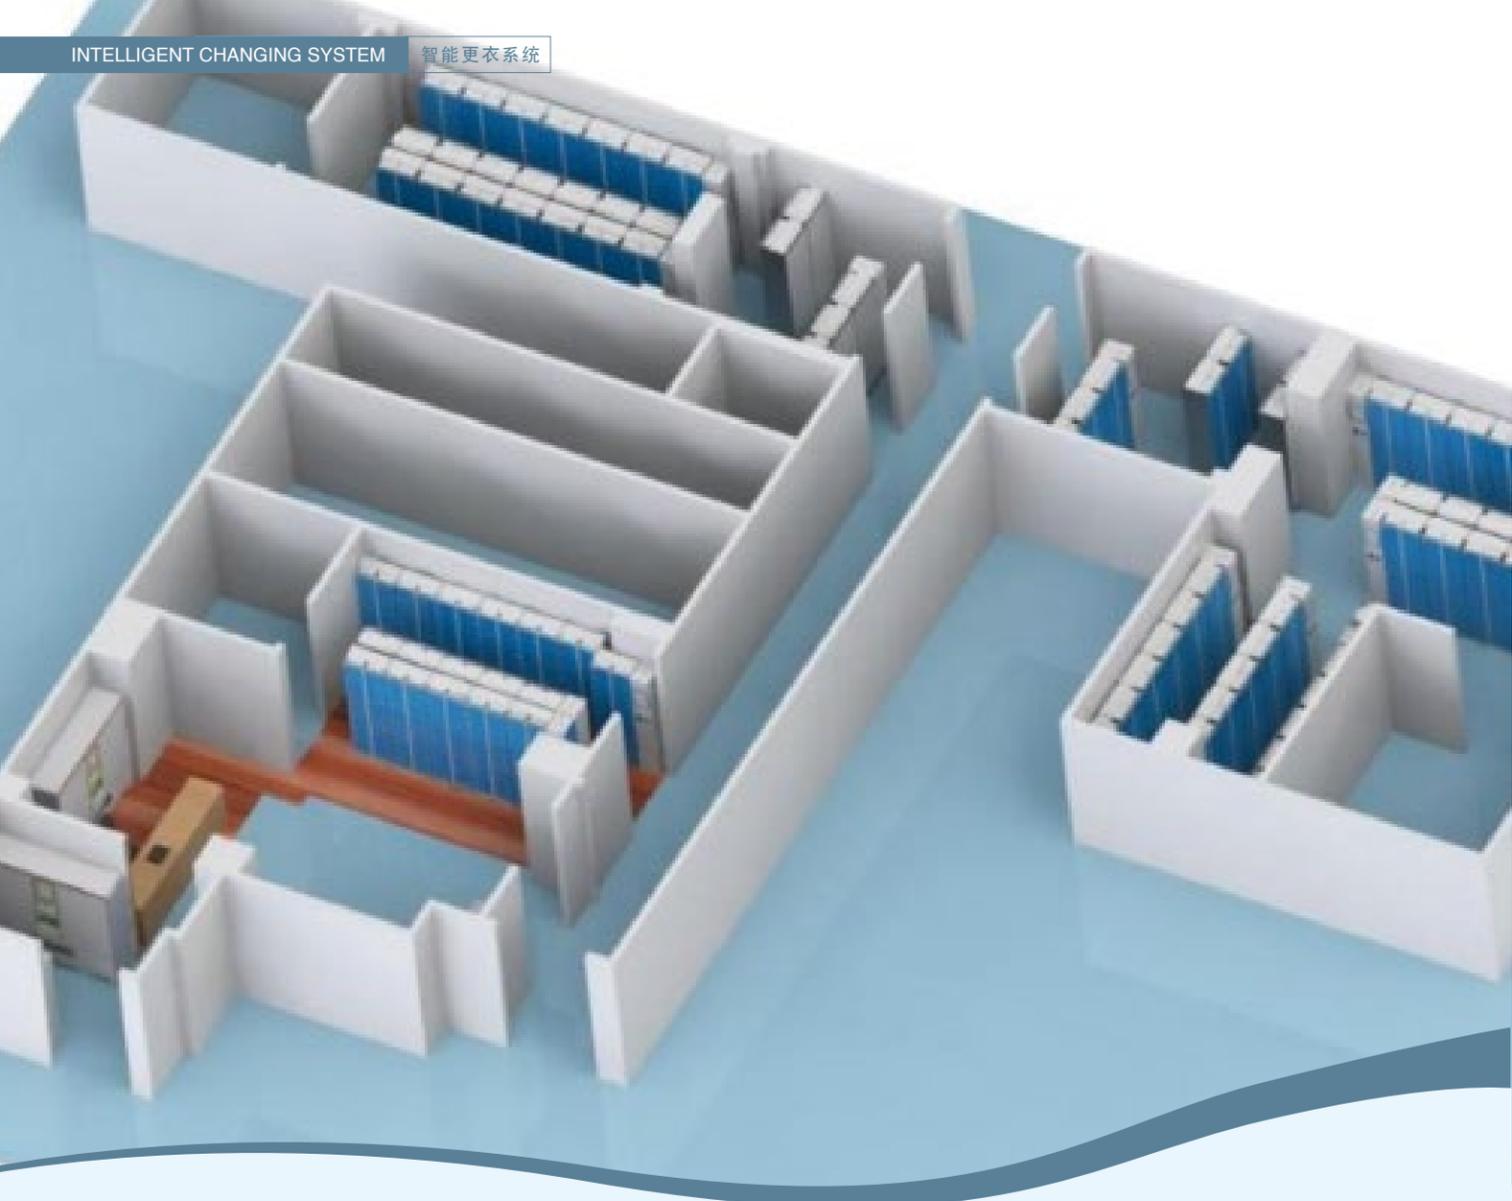

钢制更衣柜搭配防滑长凳，抗菌防潮易消杀，分区存取便捷有序，医护换装高效安心。博生医疗家具支持这种环境的打造。

Steel lockers with anti-slip benches, featuring antibacterial, moisture-proof and easy-to-disinfect properties, provide convenient and orderly storage and retrieval, ensuring efficient and reassuring changing for medical staff. Berson Medical Furniture supports the creation of such an environment.

# 手术室行为管理智能更衣系统

Three core technologies of terminal management system  
终端管理系统的三项核心技术

## 产品发展前景 Product Development Prospect

随着医学技术的发展和对手术质量要求的不断提高，对手术人员和手术环境提出了更高的要求，而手术室医疗行为管理系统实现了医护人员手术安全准入管理，手术衣及手术鞋智能发放、回收及追溯，建立了手术资源和人员行为的智能化管理体系，最大程度确保了手术室安全及高效运营，相信今后将会有越来越多的三甲医院顺应卫生改革的发展趋势，加快推进医院信息化、数字化、智能现代化的建设潮流中。

### 医疗行为管理系统

**优化流程：**手术医疗行为管理系统有效控制了人员的流动，同时优化了人员进出手术室流程，提升了医院手术室管理水平和服务水平。

**规范行为：**医疗行为管理系统改变了医院传统手术室人工发衣的管理模式，极大地改善了现有手术衣的使用现状，管理并追溯手术衣及手术鞋，进而规范了医护人员的医疗行为。

**智能高效：**该系统可提供安全可靠的24小时值守服务，代替以往的手工操作，提高服务效率和服务能力，减少手术人员更衣等待时间，改善手术室环境，提高医务人员的工作效率，节约医院的人力成本，具有明显的经济效益和社会效益。

**无缝对接：**医疗行为管理系统可对接手术安全准入系统，确保手术室洁净管理，建立全新的医护考核体系，促进信息化智慧医疗建设。

## 软件亮点 The software window

### 身份自动识别

完美对接医院一卡通系统，自动识别进出手术室的人员身份，改变以往人工核实身份流程繁琐、效率低下的情况。

### 人员精准控制

系统与医院手术排班系统无缝对接，可根据当天手术排班情况，自动审核医护人员的手术室准入机制，避免无关人员进入手术室。

### 自动分配衣鞋

医护人员刷卡，系统会随机分配就近的衣鞋柜，解决衣鞋柜空置及分配不合理等问题。

### 衣服自动发放

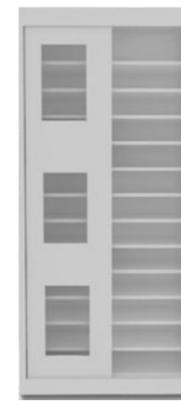

系统可根据医护人员的刷卡信息，自动弹出相应的手术衣（大、中、小号），快速便捷，规范手术衣发放。

### 衣鞋智能回收

手术完毕，医护人员只需把衣服鞋放在智能回收机的托板上，系统即会自动回收，并同步更新系统中的衣服领用信息。

### 追溯医疗行为

医护人员在进出手术室的环节中，手术衣及手术鞋的领用、归还行为都会自动记录，使医疗行为形成一个可追溯的闭环，为手术室的管理提供有力的保障。

## 采血区

### Blood Collection Area

采血区是医院的窗口部门，主要负责门诊患者的抽血检查，每天需面对大量各种各样疾病的患者。所以采血室家具在选材的时候要防止护士及患者相互交叉感染等风险隐患。

The blood collection area is the window department of the hospital, which is mainly responsible for the blood drawing examination of outpatients and needs to face a large number of patients with various diseases every day. Therefore, when selecting materials for blood collection room furniture, it is necessary to prevent risks and hidden dangers such as cross infection between nurses and patients.

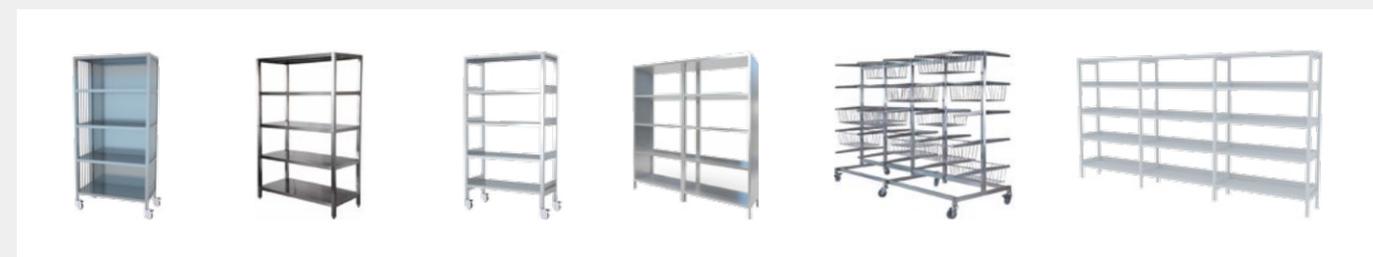

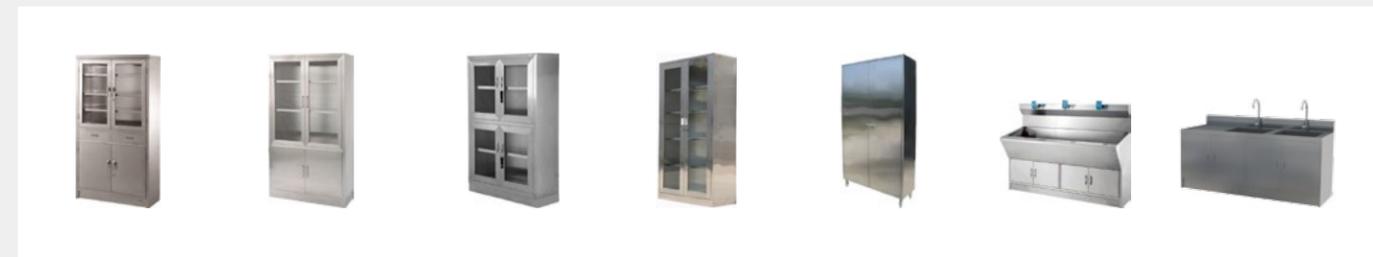

## 供应中心 Supply Center

家具设计符合人体工程学：医疗家具必须要满足人性化的要求，人性化要求的第一步是要进行人体工学，设计必须便于医生、患者使用，更是符合医生和患者的使用需求。

Furniture design should conform to ergonomics: Medical furniture must meet the requirements of humanization. The first step of humanization requirements is to conduct ergonomics. The design must be convenient for doctors and patients to use and must also meet the usage needs of doctors and patients.

Products 单品图:

 污洗间  
Cleaning Room

在功能设计上，考虑医院物品的洁、污层次分类，强调防止交叉感染，从根本上为医疗人员提供安全清洁的使用环境。医用地柜的主要设计，是博生医疗家具设计师根据客户要求，结合医院的具体环境情况及医院文化理念进行起草设计，做到最符合本医院内部实际情况的要求。在设计过程中，不断的与客户进行沟通。

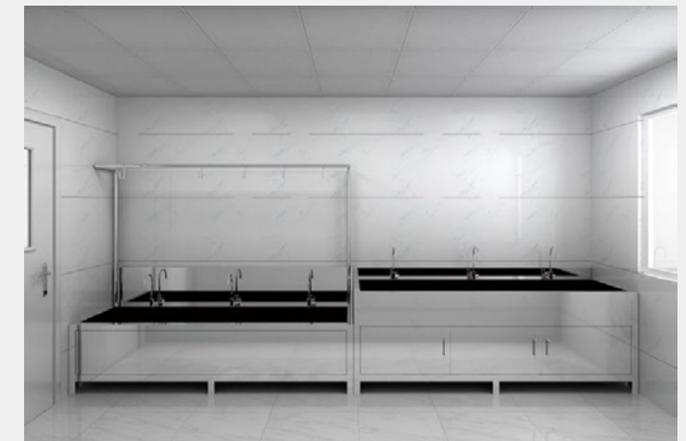

In the functional design, consider the classification of clean and dirty hospital items, emphasize the prevention of cross infection, and fundamentally provide a safe and clean use environment for medical personnel. The main design of the medical floor cabinet is that the furniture designer of Berson Medical drafts the design according to the requirements of customers, combined with the specific environment of the hospital and the cultural concept of the hospital, so as to best meet the requirements of the actual situation of the hospital. In the design process, constantly communicate with the customer.

 检验科  
Laboratory Department

家具的材质应符合环保和安全标准，要使用耐化学腐蚀、易清洁消毒的材料。根据检验人员的工作姿势和活动范围，设计符合人体工程学的家具。

The materials of the furniture should meet environmental protection and safety standards, and materials that are resistant to chemical corrosion and easy to clean and disinfect should be used. Furniture should be designed in line with ergonomics according to the working postures and activity ranges of laboratory technicians.

 检验科  
Laboratory Department

化学检验区域和其他的检查区相比，检查机器更加大型，因此，要求事前模拟机器的配置，同时充分考虑作业空间和工作动线来分区规划。

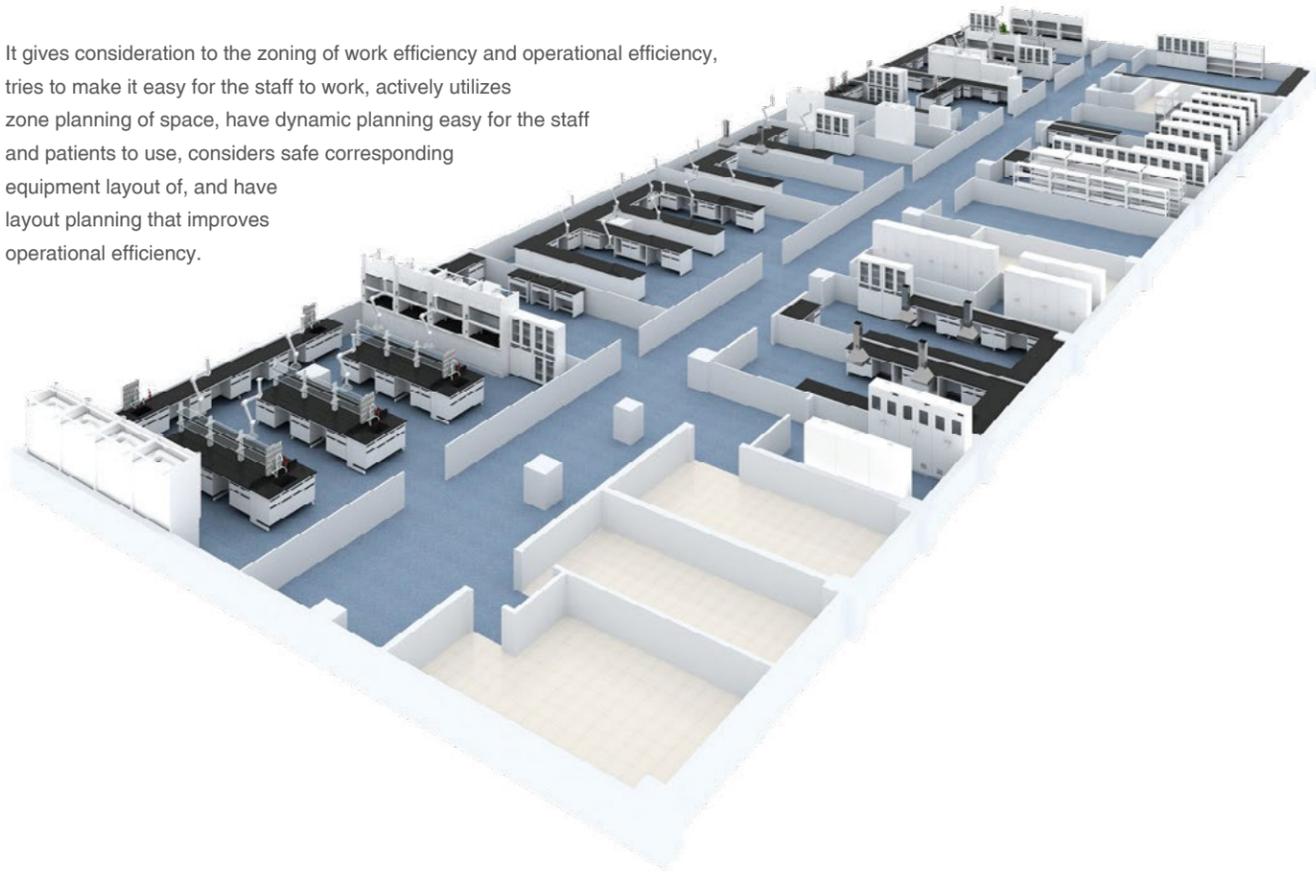

Compared with other examination areas, the biochemical examination area has larger equipment. Therefore, effort should be made to simulate the configuration of machine in advance. Besides, full consideration should be given to work space and work dynamic line for area planning.

# 检验科 Laboratory Department

考虑到工作效率、作业效率的分区，追求工作人员的易于工作性，有效地活用空间的分区规划；对工作人员以及患者来说易于使用的动线规划，考虑到安全对应的设备布置，提高作业效率的布局规划。

It gives consideration to the zoning of work efficiency and operational efficiency, tries to make it easy for the staff to work, actively utilizes zone planning of space, have dynamic planning easy for the staff and patients to use, considers safe corresponding equipment layout of, and have layout planning that improves operational efficiency.

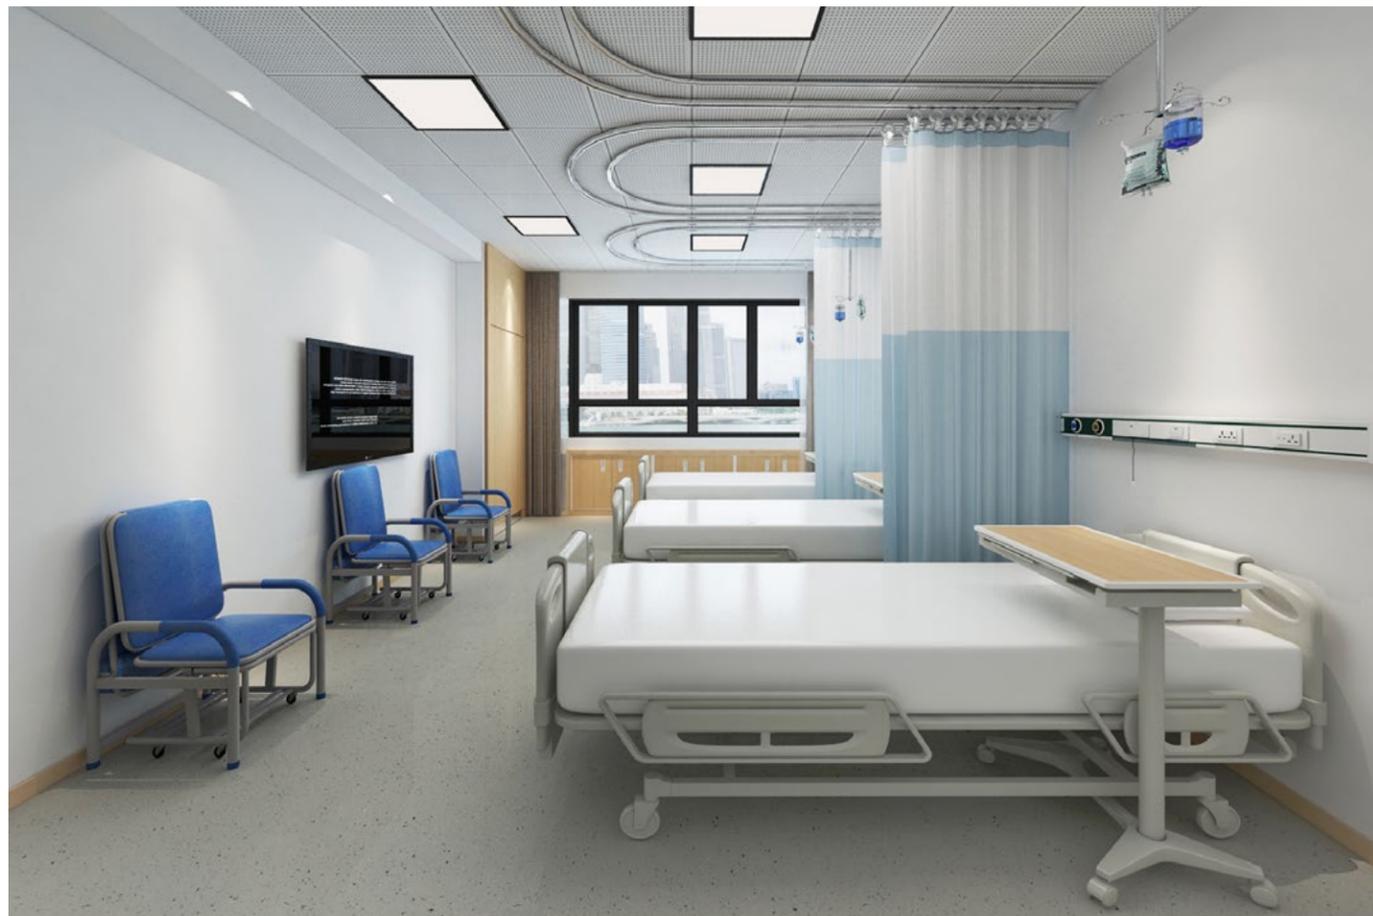

## 病房

### Laboratory Department

病房以科学化分区设计为基础，配备智能监护系统及便捷呼叫装置，确保诊疗高效联动。独立卫浴、全天候新风循环及适老化扶手等细节，构建安全舒适的休养环境。医护团队 24 小时贴心值守，融合精准监测与人性化护理，为患者提供从治疗到康复的全周期温暖照护。

The ward is based on the scientific zoning design, equipped with intelligent monitoring systems and convenient calling devices, ensuring efficient linkage in diagnosis and treatment. Features such as independent bathrooms, all-day fresh air circulation and elderly-friendly handrails, etc., have constructed a safe and comfortable recuperation environment. The medical team provides 24-hour attentive duty, integrating precise monitoring and humanized care, to offer patients warm care throughout the entire cycle from treatment to recovery.

## THE FIRST AFFILIATED HOSPITAL OF GUANGZHOU MEDICAL UNIVERSITY

## ★ 广州医科大学附属第一医院 (国家呼吸中心)

广州医科大学附属第一医院创建于1903年，是一所大型三级甲等医院，也是广州呼吸健康研究院、国家呼吸系统疾病临床医学研究中心、呼吸疾病国家重点实验室所在医院。2018年入选为广东省“登峰计划”首批单位、国家“疑难病症诊治能力提升工程”，2020年，国家呼吸医学中心正式挂牌，承担着省市乃至国家突发公共卫生事件及紧急医疗救援任务，特别是在抗击非典、禽流感以及新冠疫情等突发事件中，为国家和社会做出了重要贡献，深受广大群众信赖，享誉海内外。2020年，钟南山院士被授予“共和国勋章”；在《中国最佳医院排行榜》中，我院作为广州唯一一家市属医院连续11年入围全国百强最佳医院，呼吸专科连续11年专科排名第一。目前，医院开设病床1500张，设有44个临床科室、18个医技科室。现有职工近3300人，其中高级职称550人，博士生导师105人，硕士生导师162人；拥有中国工程院院士1人、中央保健专家3人、享受国务院特殊津贴专家11人、卫生部突出贡献中青年专家3人等高级别人才。目前，医院拥有教育部国家重点学科1个[内科学（呼吸病系）]；呼吸系统疾病国家临床医学研究中心1个（呼研所）；国家临床重点专科6个（呼吸内科、胸外科、重症医学科、泌尿外科、变态反应科、肿瘤科）；国家中医药管理局重点建设学科1个（中西医结合临床学科）；国家中医药管理局重点专科1个（中医肺病专科）；广东省重点学科3个（内科学，儿科学，外科学）；广东省临床重点专科21个（心血管内科、呼吸内科、消化内科、神经内科、血液内科、感染病科、普通外科、胸外科、泌尿外科、骨科、妇科、儿科、急诊科、重症医学科、变态反应科、肿瘤科、中西医结合学科、耳鼻喉科、检验科、医学影像科、临床护理）；国家重点实验室1个（呼吸疾病国家重点实验室）；广东省重点实验室3个（呼吸疾病国家重点实验室、广东省泌尿外科重点实验室、广东省骨科矫形技术与植入材料重点实验室）。医院注重医学专业技能与医学人文技能教育，主要承办南山学院、临床医学一系的本科教学工作，设有内、外、妇、儿等23个教研室及24个住培专业基地，承担本科、硕士、博士、博士后流动站、成人教育及住院医师规范化培训等多层次人才培养。临床医学为一级学科博士点和一级学科硕士点，中西医结合为一级学科硕士点，临床医学是国家特色专业、同时也是国家级一流建设专业，在专业建设过程中形成了较完整的四级精品课程建设体系（国家级-省级-市级-校级）。2001年至今，医院共主持国家“973”项目3项、“十五”攻关项目1项、“十一五”攻关项目2项、“十二五”攻关项目2项、“863”项目7项、国家自然科学基金项目298项，主持省部级项目534项，科研论文15751篇，SCI收录1845篇。全院获各种科技奖励85项，其中国家科技进步二等奖6项；教育部科技进步一等奖1项、二等奖4项；教育部技术发明奖1项；省科技进步奖30项。医院创办多本专业杂志，2007年起承办中华关节外科杂志（电子版），2009年创刊广东省第一本医学SCI杂志《JOURNAL OF THORACIC DISEASE》，2011年被PubMed收录，2013年被SCI收录；创刊《Annals of Translational Medicine》2014年9月被PubMed收录，2018年被SCI收录。秉承“全心全意为人民健康服务”的宗旨，医院不断优化服务流程，积极拓展多种形式的预约挂号、专科门诊服务等便民措施，通过加强医院精细化管理，持续提高医疗服务水平及服务质量。医院还大力开展帮扶工作，现与广东省百余家基层医院签订支持和帮扶协议，多次赴西藏等地区进行巡回医疗活动，主动参与海外医疗援助工作。同时，医院积极开展健康科普宣教活动，每年举办COPD日大型讲座义诊、肿瘤防治宣传活动、帕金森病友联谊会等形式多样的惠民活动，深入社区、深入基层，广泛传播健康理念。

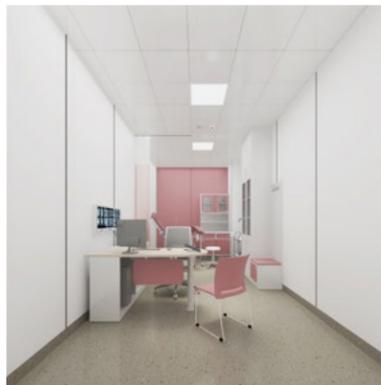

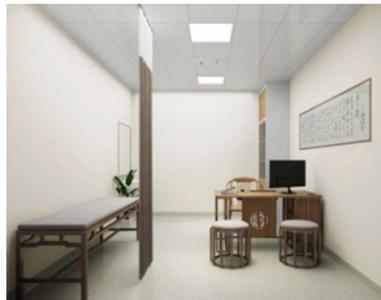

## SHENZHEN FUTIAN DISTRICT MATERNITY & CHILD HEALTHCARE HOSPITAL

### ★ 深圳市福田区妇幼保健院

医院位于深圳市中心区，距离香港不足2公里，为深圳市唯一邻近双口岸（皇岗口岸、福田口岸）、三地铁（四号线、七号线、十号线）的医院，现总占地面积9100.4平方米，建筑面积20299平方米。建设中的新院区（福田区妇儿医院）位于福田区安托山，按照三级甲等医疗等级建设，规划床位800张，总用地面积为17346.93平方米，总建筑面积142628平方米，预计2025年投入使用。

## SHENYE YIJU

### ★ 深业颐居

深业颐居以医养融合、中医康复、持续照护为服务特色，涵盖医养综合体、长者公寓、CCRC 综合社区、康养小镇等产品业态，致力为长者提供高品质的一站式养老服务。

深业颐居首个项目——深业生命健康中心，建筑面积约2.7万平方米，共计386张床位，总投资近5亿元。项目涵括养生公寓、养护中心和康复医院三种业态，定位为以医疗康复为依托、中医诊疗为特色、养老照护服务为核心的都市高端“医养综合体”。可为长者提供中医养生、康复医疗、养老照护、文化娱乐等综合性养生养老服务。

## JINZHU CAMPUS OF GUIZHOU PROVINCIAL PEOPLE'S HOSPITAL

### ★ 贵州省人民医院观山湖院区

贵州省人民医院金朱医院建设项目一期位于贵州省人民医院金朱医院新建院区内，院区南侧为金朱东路，西侧为石标路，北侧为东林寺路，东侧为规划路。项目包括门诊医技楼、内外综合病房楼、妇产综合楼、儿童综合楼，规划总建筑面积为50万m<sup>2</sup>，其中一期总建筑面积为306974.33m<sup>2</sup>。总建筑高度为95.85m，设计总床位为3000床。

## KARAMAY CENTRAL HOSPITAL, XINJIANG

### ★ 新疆克拉玛依市中心医院

新疆克拉玛依市中心医院成立于1956年，1994年5月跨入国家“三级甲等”医院行列，是本市唯一一所集医疗、教学、科研、预防、康复、急救为一体的大型综合性“三级甲等”医院。一期综合医院建设建筑面积24.74万平米，床位1000张，床均建筑面积200平米/床，总计八栋楼包括住院楼（12层，约4.2万M<sup>2</sup>）、中心诊疗区（医技部4层，约4.2万M<sup>2</sup>）、急诊楼（4层，约4.2万M<sup>2</sup>）、三个门诊单体楼（4层，约4.2万M<sup>2</sup>）、妇幼楼（7层，约4.2万M<sup>2</sup>）、感染楼（5层，约4.2万M<sup>2</sup>）、健检楼（5层，约4.2万M<sup>2</sup>）。本项目规划是以“医学城”理念，依照“1+1+X”发展模式（1个综合医院+1个平台+X个中心——国际远程会诊中心、国际影像检验中心、国际远程体检中心、国际肿瘤微创治疗中心）构筑和打造克拉玛依国际医学城。二期开拓建设国际医学城，由新建综合医院和国际医学中心共同构成克拉玛依国际医学城。以新建综合医院为主体，建立四个国际中心：（一）国际远程会诊中心；（二）国际影像检验中心；（三）国际远程体检中心；（四）国际肿瘤微创治疗中心。以四大国际医疗中心为主线，通过医疗、教学、科研互动，医疗体系和管理模式的创新，形成可持续发展的国际医疗优势。同时，大力发展优势和特色专科，以诊疗中心的模式规划建设，满足业务拓展和发展需求，通过市场化运作，带动综合医院的学科建设和发展，提高核心竞争力。

### ★江西省儿童医院红谷滩新院

江西省儿童医院红谷滩新院工程经省发改委批准立项，项目占地面积 103.57 亩，总建筑面积 19.9 万平方米（不含架空转换层面积），设计床位为 1600 张，工程总投资约 10 亿元。主要建设内容为：门急诊医技病房综合楼（19 层）、服务综合楼（5 层）、行政楼（7 层）、感染楼（5 层），所有单体工程地下室均连通，地下室面积为 50664 平米。

江西省儿童医院红谷滩新院位于南昌市红谷滩中心区蝶子湖中大道，紧邻南昌二中新校区和辐射全省的南昌市公交红谷滩客运配套中心，建设中的黄家湖互通立交枢纽擦肩而过，与规划中的黄家湖湿地公园仅一路之隔，与南昌地铁一号线雅苑路站相距 500 米，距阳明路老院院址仅 4.5 公里，并有多条市内公交和地铁相连。建成后的该院红谷滩新院必将以一流的技术，一流的质量，一流的服务，优美的环境，便利的交通，为全省人民群众就医提供高品质的服务。不久的将来，一个具有独特设计的现代化医院建筑群将成为伫立于南昌市红谷滩中心区的新地标。

## 家具保养说明

### FURNITURE MAINTENANCE INSTRUCTIONS

#### 一、木制家具的保养

天然木材的家具制品，其最大的优点在于天然形成的木纹，与多变化的自然色彩。由于天然木是不断呼吸的有机体，因此必须放置在温湿合宜的环境里，同时须避免饮料、化学药剂或过热的物体放置在表面，以免损伤木质表面的天然色泽。若是美耐特板材质，当污垢较多时，则可利用稀释过的中性清洁剂佐以温水先擦拭一次，再以清水擦拭，记得以柔软的干布擦去残留水渍，待完全擦净后，再使用保养蜡磨亮，就算大功告成了。唯有重视日常的清洁与保养，才能使木材家具历久弥新。

#### 二、皮制家具的保养

皮革具有良好的耐热、耐湿及透气等特性，加上真皮的天然纤维较无方向性，无论平放、垂挂都呈现均匀的伸缩性；此外，真皮的染色不易褪色，并具有高雅的色泽、绝佳的触感及亮丽的外表，因此一直深受消费大众的喜爱。如何能维持真皮制品的动人外貌呢？平日的清洁是关键。一般保养只须使用干净柔软的布料轻轻擦拭即可，如果要清理长期使用所产生的污垢，最理想的方式为：首先，请使用温水稀释的中性清洁剂（1% - 3%）先行擦拭，再以拧干的清水抹布擦去清洁液，最后再以干布擦亮，待全干后使用适量的皮革保养剂均匀擦拭即可。

#### 三、布质家具的保养

最常使用在椅子和沙发上的布料，其舒适的触感与丰富的花色，让传统家具的表面更为多样。一般常见的保养方法：当沾上灰尘、砂土等干性污垢时，只要轻轻拍去或用吸尘器吸净即可，至于成粒的砂土，则可用毛刷顺手向内轻刷，但不可使用硬毛刷，以免伤害布面。如果沾到饮料、果汁，可先行用擦手纸巾吸去水份，然后以温水溶解中性洗洁剂擦拭，再使用干净的软布擦干，最后以低温烘干即可。

#### 四、钢制家具的保养

坚实耐用的钢制家具是办公家具最为常见的，尤其是资料柜、档案柜等钢制品，更是办公室中不可缺少的收纳工具。钢制办公家具呈现在外表部分，其保养方式可使用柔软的抹布擦拭，但避免使用粗糙、有机溶剂（如松脂油、去油污）或湿的布块擦拭，这些都是造成表面伤痕、生锈的主要原因。
